## CLINICAL EXPERIENCE

### **Founder & Clinical Neuropsychologist**

11/2019-present

*Private Practice, Mountainside, NJ*

- Established a private practice specializing in adult neuropsychology, conducting comprehensive outpatient neuropsychological evaluations in neurologic, psychiatric, and geriatric patient populations
- Provide feedback to patients, families, and referring providers regarding cognitive abilities and discuss recommendations to enhance functioning in the community
- Offer insights and resources to families and caregivers regarding what to expect with the course of illness and level of functioning of the patient

### **Director of Assessment / Staff Neuropsychologist**

12/2018-11/2019

*Hudson Valley Center for Development, New Windsor, NY*

- Directed the assessment arm of a 20-person psychology group practice, including reporting into the executive director on assessment needs of the practice, providing supervision to assessment staff, managing recruitment of new staff, coordinating intakes, and maintaining updated assessment materials
- Conducted comprehensive outpatient neuropsychological evaluations in neurologic, psychiatric, geriatric, and pediatric patient populations
- Provided feedback to patients, families, and referring providers regarding cognitive abilities and recommendations to enhance functioning in the community

### **Clinical Neuropsychology Postdoctoral Resident**

09/2016-10/2018

*Michael E DeBakey VA Medical Center, Houston, TX*

- 2-year APA-accredited APPCN member residency program specializing in neuropsychology
- Conducted brief neuropsychological evaluations on various inpatient populations, including units specializing in long-term epilepsy monitoring, psychiatry, and spinal cord injury
- Conducted comprehensive outpatient neuropsychological evaluations in neurologic, psychiatric, polytrauma, and geriatric patient populations
- Developed research ideas, perform statistical analyses, and draft manuscripts for peer-reviewed academic journals in mild TBI patient populations
- Gave oral presentations to neuropsychology staff and trainees to demonstrate advanced understanding and academic growth in new topic areas
- Attended weekly seminars specializing in neuropsychology and neuroanatomy
- Provided supervised supervision to psychology interns and externs

Supervisors: Robert Collins, PhD, ABPP-CN, Nicholas Pastorek, PhD, ABPP-CN, Nicholas Wisdom, PhD, ABPP-CN, Brian Miller, PhD, & Jane Booth, PhD, ABPP-CN

### **Clinical Neuropsychology Predoctoral Intern**

06/2015-06/2016

*Jesse Brown VA Medical Center, Chicago, IL*

- Conducted clinical intake interviews and administer neuropsychological testing using a flexible battery approach with inpatient and outpatient veterans with cognitive concerns due to TBI, current or past substance abuse, psychiatric issues, and neurodegenerative processes.
- Administered neuropsychological testing in a civilian population with cognitive concerns due to various medical conditions.

- Interpreted and integrated test results into a written neuropsychological report and conduct feedback sessions to provide diagnostic impressions and treatment recommendations.
  - Performed long-term individual therapy in a veteran population with chronic addiction within a methadone clinic.
  - Facilitated group therapy for veterans with PTSD using manual-based CBT for Insomnia.
  - Attended weekly applied neuropsychology and neuroanatomy seminars.
- Supervisors: Neil Pliskin, PhD, ABPP-CN, Rollin Socha, PsyD & Robert Walters, PhD.

**Clinical Neuropsychology Extern**

07/2014-05/2015

*Edward Hines, Jr. VA Hospital, Hines, IL*

- Conducted clinical intake interviews and implemented a flexible battery approach to assess current neuropsychological functioning.
  - Interpreted test results and composed written neuropsychological evaluations for patients and their providers that present background information, behavioral observations, testing results, diagnostic impressions, and treatment recommendations.
  - Provided individual feedback sessions to review results and answer questions.
  - Attended weekly neuropsychology didactic seminars.
- Supervisors: David Kinsinger, PhD, ABPP-CN & Amanda Urban, PhD, ABPP-CN

**Clinical Neuropsychology Extern**

07/2013-06/2014

*Neuropsychology Service – UIC Medical Center, Chicago, IL*

- Administered neuropsychological assessments in Spanish and English to examine current cognitive functioning using a hypothesis-driven approach.
  - Interpreted test results and composed integrated neuropsychological reports for individuals that presented background information, behavioral observations, testing results, diagnostic interpretations, and treatment recommendations
  - Observed clinical interviews to assess history of presenting problem.
  - Attended seminars in applied neuropsychology, neuroanatomy, and behavioral neuroscience.
- Supervisor: Neil Pliskin, PhD, ABPP-CN

**Rehabilitation and Psychological Assessment Extern**

06/2012-05/2013

*Rehabilitation Psychology – UIC Medical Center, Chicago, IL*

- Conducted clinical intake interviews and assessed presenting problem and contributory factors and administered neuropsychological assessments in Spanish and English.
  - Composed reports that presented testing results, diagnostic interpretations, and treatment recommendations and provided direct feedback to patients.
  - Performed individual adult and child therapy in Spanish and English that incorporated cognitive rehabilitation techniques to address neuropsychological deficits found in testing.
  - Attended seminars in applied neuropsychology and neuroanatomy.
- Supervisor: Linda Laatsch, PhD

**Psychotherapy and Assessment Extern**

09/2009-07/2013

*UIC Office of Applied Psychological Services, Chicago, IL*

- Conducted semi-structured client intake interviews to assess presenting problem and determine suitability for psychotherapy and psychological testing.

- Performed individual adult therapy in English and Spanish using cognitive behavioral techniques, with experience in mood and anxiety disorders and adult ADHD.
  - Assessed relevant cognitive domains and composed formal testing reports for individuals in need of academic accommodations, e.g., due to learning disorders, ADHD, and mood and anxiety disorders.
  - Mentored 1st-year doctoral students on clinic procedures, e.g. conducting intakes.
- Supervisors: Neil Pliskin, PhD, ABPP-CN, Audrey Ruderman, PhD, Gloria Balague, PhD, Nancy Dassoff, PhD, & Elise Massie, PhD

## AWARDS

- Blue Ribbon Award: Society for Clinical Neuropsychology (APA Division 40), Received for poster submission entitled, “Measurement of Outcome Following Neuropsychological Evaluation: The Impact on the Consumer,” January 2014
- Student Presenters Award, Presented by Graduate College, \$200  
June 2011, January 2013, April 2014, February 2015
- Travel Award, Presented by Department of Psychology, \$300

## CLINICAL SUPERVISOR EXPERIENCE

**Postdoctoral Residency in Clinical Neuropsychology**  
*Michael E DeBakey VA Medical Center; Houston, TX*

09/2016-present

- Supervised supervision model; supervised multiple interns and externs with varying levels of experience in neuropsychological assessment

**Predoctoral Internship in Clinical Psychology** 06/2015-06/2016

*Jesse Brown VA Medical Center, Chicago, IL*

- Supervised supervision model; supervised a psychology extern on psychological assessment of a long-term therapy case with suspected dementia

**PSCH 582 – Practicum in Psychological Assessment** 08/2014-05/2015

*University of Illinois at Chicago*

Professor: Amanda Lorenz, PhD

- Observed first- and second-year Clinical Psychology PhD students administer cognitive assessment batteries, including WAIS-IV and Woodcock-Johnson Test of Achievement.
- Met with students for supervision and provide feedback on clinical assessment skills, including correct administration of tests and rapport-building techniques.

**PSCH 381 – Interviewing** 08/2011-08/2012

*University of Illinois at Chicago*

Professors: Ellen Herbener, PhD & Kathryn Engel, M.A.

- Observed undergraduate-level students conduct clinical interviews.
- Met with students for supervision and provided feedback on clinical interviewing skills, including use of open-ended questions, reflections, paraphrasing, and nonverbal behaviors to promote rapport.

**RESEARCH EXPERIENCE**

**Rehabilitation Care Line VA Research** 09/2016-present

*Michael E DeBakey VA Medical Center, Houston, TX*

PI: Nicholas Pastorek, PhD, ABPP-CN; cross-sectional study examining neuropsychiatric symptom reporting in veterans with mild traumatic brain injury (TBI)

- Clean and analyze database for multi-site VA research study on veterans with history of mild TBI
- Present data at national professional neuropsychology conferences
- Draft manuscripts examining neuropsychiatric symptom reporting, symptom validity, and performance validity in a mild TBI population (see Manuscripts Under Review section)

**Schizophrenia Research Lab** 08/2009-05/2016

*University of Illinois at Chicago*

PI: Ellen S. Herbener, PhD; cross-sectional study assessing relationship between emotional processing, cognition, and social functioning in schizophrenia spectrum disorders.

- Administered, scored, and interpreted cognitive and clinical ratings to individuals with schizophrenia spectrum disorders and healthy controls.
- Conducted structured interviews to determine psychiatric diagnoses.
- Maintained Institutional Review Board research protocols to ensure ethical treatment of research participants while achieving research goals.

- Formulated new tasks to enable testing of proposed research questions.
- Analyzed and presented data at professional psychology and psychiatry conferences.
- Drafted manuscripts assessing social and emotional factors in schizophrenia (see Publications section).

**Epigenetics Translational Research Lab**

09/2012-03/2017

*University of Illinois at Chicago*

PI: Rajiv Sharma, MD; Grant: R01 MH094358; cross-sectional study examining epigenetic predictors of clinical and cognitive factors in schizophrenia and bipolar disorder.

- Administered MATRICS neuropsychological battery and assess premorbid cognitive functioning on inpatient and outpatient schizophrenia and bipolar disorder patients.
- Conducted semi-structured interviews to assess current social functioning.
- Developed and implemented tasks to measure various aspects of anhedonia and social cognition.
- Analyzed and presented data at professional psychology and psychiatry conferences and draft manuscripts (see Publications section).

**Hyperactivity, Attention, and Learning Problems (HALP) Clinic**

06/2012-05/2013

*University of Illinois at Chicago*

PI: Mark Stein, PhD; clinical trial examining the impact of pharmaceutical treatment of maternal ADHD on children with attention problems.

- Contributed to a symposium on unique predictors of side effects in stimulant and non-stimulant medication for the treatment of ADHD.
- Conducted phone screens to determine participant eligibility for Mothers First study on treating mothers with ADHD symptoms and coordinated study visits.
- Administered intake interviews and coordinated clinic appointments for assessments and consultations.

**Schizophrenia Prodromal Clinic**

12/2007-06/2009

*Columbia University Medical Center, New York, NY*

PI: Cheryl M. Corcoran, MD; 4-year longitudinal study that assesses changes in thoughts and feelings over time in young adults prodromal to schizophrenia.

- Administered and scored psychological measures to individuals putatively prodromal to schizophrenia as well as normal controls to track symptoms over time.
- Managed a database with 5 years of longitudinal data.
- Drafted manuscript on cannabis risk in schizophrenia prodromes (see Publications section).
- Analyzed the video data of children of schizophrenic parents to draft a manuscript used for master's project.
